Management's Discussion and Analysis  
For the three and six months ended June 30, 2021  
Dated: August 23, 2021**

### **INTRODUCTION**

The following is Management's Discussion and Analysis of the financial condition and results of operations of Golden Valley Mines and Royalties Ltd. (previously, Golden Valley Mines Ltd.) (hereinafter "**Golden Valley**" or the "**Company**") for the three and six months ended June 30, 2021 which have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board and Interpretations of the International Financial Reporting Interpretations Committee. This discussion and analysis should be read in conjunction with the unaudited condensed consolidated interim financial statements for the three and six months ended June 30, 2021 and the audited consolidated financial statements of the Company for the year ended December 31, 2020, and the related notes thereto. All figures are in Canadian dollars unless otherwise specified.

The technical content in this Management's Discussion & Analysis has been prepared under the supervision of Glenn J. Mullan P. Geo., the President and Chief Executive Officer of Golden Valley, and Michael P. Rosatelli P. Geo., the Vice-President Exploration of Golden Valley, who are the Qualified Persons as such term is defined in National Instrument 43-101 - *Standards of Disclosure for Mineral Projects*. All technical disclosure regarding the Company's joint venture properties has been derived solely from the public disclosure of the Company's various joint venture partners, without independent verification.

This MD&A has been reviewed by the audit committee and approved by the Company's Board of Directors on August 23, 2021.

### **FORWARD-LOOKING STATEMENTS**

All forward-looking statements speak only as of the date hereof and, except as required by law, the Company does not undertake any obligation to update or publicly release any revisions to such forward-looking

statements to reflect events, circumstances, or changes in expectations after the date hereof. Accordingly, readers should not place undue reliance on such forward-looking statements.

## COMPANY OVERVIEW

Golden Valley is a mineral exploration company whose assets include 17 exploration properties located in the Abitibi Greenstone Belt (Ontario and Québec) and the James Bay region of mid-north Québec. Refer below to “Properties and Interests”, “Option and Joint Venture Properties” and “Property Interests Assigned to the Reporting Subsidiary” for further details.

At the Company’s Annual General and Special Meeting of Shareholders held on June 25, 2021, the shareholders passed a special resolution to change the Company’s name to “Golden Valley Mines and Royalties Ltd”. On July 15, 2021, the Company filed Articles of Amendment to effect the name change and commenced trading under the new name on the TSXV under its current trading symbol, “GZZ,” at the opening of trading on July 16, 2021. The Company’s common shares also trade on the OTCQX under the symbol “GLVMF”. The OTCQX Market is designed for established, investor-focused U.S. and international companies.

Golden Valley has the following subsidiaries: Abitibi Royalties Inc. (“Abitibi Royalties”) and Calone Mining Ltd (“Calone Mining”). The subsidiaries have been incorporated under the *Business Corporations Act* (British Columbia). As at June 30, 2021, Golden Valley owns 5,605,246 common shares of Abitibi Royalties, representing an equity interest of approximately 44.96% and owns a 100% equity interest in Calone Mining.

As Golden Valley holds the single largest equity interest in Abitibi Royalties and additional equity interest is being held by Golden Valley’s management and board of directors, Golden Valley is considered to control Abitibi Royalties. Accordingly, the financial and operating results of Abitibi Royalties are consolidated 100% within Golden Valley and a non-controlling interest is recognized on the net assets and net income of Abitibi Royalties. Refer to the MD&A section “*Supplementary Information on Operating Results*” and “*Financial Condition Review*” which provides detailed financial and operational information with respect to the separate legal entities.

As at June 30, 2021, the Company’s investment in associates relate to Val-d’Or Mining Corporation (“Val-d’Or Mining”), which is involved in the process of exploring, evaluating and promoting its mineral properties and other projects.

For the period up to June 15, 2021, the Company’s investment in associates also included International Prospect Ventures Ltd. (“International Prospect”), which is involved in the process of exploring, evaluating and promoting its mineral properties and other projects.

The Company's other significant assets are the shares that it holds in other mining or exploration companies, the fair market value of which has a continuing impact on the Company's financial condition:

a) *Abitibi Royalties Inc. ("Abitibi Royalties")*

Abitibi Royalties, a company listed on the Exchange under symbol "RZZ", owns various 1.5% to 3% Net Smelter Returns ("NSR") and 15% Net Profit Interests ("NPI") in areas located at or near the Canadian Malartic Mine, a partnership jointly operated by Agnico Eagle Mines Limited ("Agnico Eagle") and Yamana Gold Inc. ("Yamana").

On December 7, 2020, Abitibi Royalties' Board of directors approved a 20% dividend increase to the Company's outstanding common shares from \$0.15 to \$0.18 per common share on an annualized basis effective January 2021. For the three and six months ended June 30, 2021 and 2020, Golden Valley earned dividends of \$252,236 and \$504,472 from its equity interest in Abitibi Royalties, respectively. Golden Valley holds 5,605,246 common shares in Abitibi Royalties as at June 30, 2021 and December 31, 2020.

Refer below to "*Property Interests Assigned to Reporting Subsidiary*" for further details.

b) *Val-d'Or Mining Corporation ("Val-d'Or Mining")*

As at June 30, 2021, Golden Valley holds a 37.96% (December 31, 2020 –39.57%) equity interest in Val-d'Or Mining, a company listed on the Exchange under symbol "VZZ", whose 100%-owned assets include 56 actively operated properties located in the Abitibi Greenstone Belt (Québec), the Nunavik Region (Ungava Belt) in northern Québec, and in north-central (James Bay) Québec.

Refer below to "*Investment in Associates*" for further details.

c) *International Prospect Ventures Ltd. ("International Prospect")*,

As at June 30, 2021, Golden Valley holds a 11.45% (December 31, 2020 -13.44%) equity interest in International Prospect, a company listed on the Exchange under symbol "IZZ", whose assets include a 100% interest on eight tenements, covering over 100,000-hectares in the Pilbara region in Western Australia, and, in Canada, the Porcupine Miracle Prospect (Ontario), and a 100% interest in the Beartooth Island Prospect (Saskatchewan).

On June 15, 2021, International Prospect completed a private placement of \$800,250 which resulted in an issuance of 5,334,999 Units at a price of \$0.15 per Unit, with each Unit comprising of one common share in the capital of International Prospect and one-half of one non-transferable share purchase warrant. As a result of the private placement, the Company's ownership in International Prospect decreased to 11.45% of the issued and outstanding common shares of International Prospect.

The information detailed in this report and pertaining to Abitibi Royalties, Val-d'Or Mining and International Prospect has been extracted from publicly available documents prepared by each of these companies and electronically filed with regulators, which are publicly available on SEDAR website ([www.sedar.com](http://www.sedar.com)) under their respective issuer profile.

## **ENVIRONMENTAL, SOCIAL AND GOVERNANCE FACTORS**

Golden Valley strives to ensure that its activities support environmental sustainability, social responsibility and strong governance. Golden Valley has been involved in various community efforts to help rehabilitate abandoned mineral exploration sites in various parts of Québec and has also supported the Château de Marie-Ève project, which is a new women's shelter being built in Val-d'Or, Québec under the direction of the La Piaule mission. Golden Valley also makes every effort to ensure that it meets all required standards of corporate governance, following industry best practices and satisfying legal and regulatory requirements. The Company has long had policies such as "Anti-Corruption" and "Code of Ethics", which apply to the board of directors, officers, staff and key consultants. See "Risk Factors" below.

## **CORPORATE STRATEGY**

Golden Valley is focused on project generation and evaluates opportunities to enhance its mining exploration property portfolio. The Company typically seeks partners to fund projects by way of option and joint venture agreements. Most of the agreements allow the partner to earn into a property by incurring exploration expenditures normally over periods of three to five years. In some instances, Golden Valley acts as the operator and continues exploration on these same properties funded in advance by or recovered from the partner. Furthermore, in addition to third party disbursements for exploration funding, the Company's option agreements typically provide for receipt by Golden Valley of either cash, shares, or both from its partners as well as the eventual retention of a free-carried interest and/or a net smelter royalty following vesting.

## **UPDATE ON COVID – 19**

The Company continues to actively monitor the impact of the COVID-19 pandemic, including the impact on economic activity and financial reporting. The duration and full financial effect of the COVID-19 pandemic is unknown at this time, as are the measures taken by governments, companies and others to attempt to reduce the spread of COVID-19.

Any estimate of the length and severity of these developments is therefore subject to significant uncertainty, and accordingly estimates of the extent to which the COVID-19 may materially and adversely affect the Company's operations, financial results and condition in future periods are also subject to significant uncertainty.

In properties where the Company holds royalty interests, there has been temporary operational restrictions due to the ongoing COVID-19 pandemic, including operations being previously placed under care and maintenance and thereafter the resumption of mining activities. In the current environment, the assumptions and judgements made by the Company are subject to greater variability than normal, which could in the future significantly affect judgments, estimates and assumptions made by management as they relate to potential impact of the COVID-19 and could lead to a material adjustment to the carrying value of the assets or liabilities affected. The impact of current uncertainty on judgments, estimates and assumptions extends, but is not limited to, the Company's valuation of its long-term assets, including the assessment for impairment and impairment reversal. Actual results may differ materially from these estimates.

## **PROPERTIES AND INTERESTS**

The Company's exploration activities for the second half of 2021 focused primarily on managing and/or monitoring joint venture and/or option project exploration programs, and project generation activities directed to identifying and evaluating new opportunities and business development purposes.

### ***Abitibi Greenstone Belt ("AGB") Grassroots Exploration Project***

The 17 AGB properties are comprised of gold (15), copper-zinc-silver (1), and nickel-copper-PGE (1) prospects located in Québec (10) and Ontario (7).

Golden Valley's exploration strategy consists of a systematic approach designed to mitigate grassroots exploration risk, and enhance the possibility of exploration success, through the sequential exploration of a large number of grassroots properties. Preliminary fieldwork conducted over the Company's properties typically includes grid establishment, geophysical and/or geochemical surveys, prospecting, reconnaissance and grid mapping and sampling, with the objective of upgrading and advancing each property to the group of "drill-ready" prospects.

## **OPTION AND JOINT VENTURE PROPERTIES**

### ***a) Mining Option Agreement with Val-d'Or Mining Corporation***

On April 18, 2017, the Company granted to Val-d'Or Mining an option to acquire a 100% interest in 61 of its grassroots properties, which option was amended and restated as of November 28, 2019 and exercised on December 5, 2019. Pursuant to the option, Val-d'Or Mining issued 8,333,334 shares to Golden Valley in 2020. In addition, Golden Valley is eligible to receive 20% of the proceeds of all third-party transactions pertaining to the properties that Val-d'Or Mining enters into and announces on or before December 31, 2022. Furthermore, the properties are subject to a royalty in favour of Golden Valley equal to 1.25% of the net smelter returns, whereby Val-d'Or Mining has a partial buyback right. The partial buyback right pertains to each individual property, whereby 1% may be bought for \$500,000 on a property-by-property basis with a maximum total consideration of \$5,000,000 at which point in time the NSR royalty on all the properties would be reduced by 1.0%.

For additional details with respect to the exploration and field work completed to date at Val-d'Or Mining, please refer to Val-d'Or Mining's continuous disclosure documents available at the SEDAR website ([www.sedar.com](http://www.sedar.com)) by accessing Val-d'Or Mining's issuer profile).

### ***b) Mining Option Agreement with BonTerra Resources Inc. – Lac Barry, Québec***

On March 16, 2016, the Company granted an option to BonTerra Resources Inc. ("BonTerra") on the Lac Barry Prospect located in the Abitibi Greenstone Belt, northeast of Val-d'Or, Québec. BonTerra issued to Golden Valley common shares in the capital of BonTerra having an aggregate value of \$200,000, and incurred expenditures in an aggregate amount of \$2,000,000 over a three-year period. Upon BonTerra exercising the option on June 4, 2019, it earned an 85% interest in the property and, the Company retained a 15% Free Carried Interest and a 3% NSR, with 1% of the NSR being subject to a buyback in favour of

BonTerra for \$1 million payable by BonTerra to Golden Valley. On February 9, 2020, the Company and BonTerra entered into a joint venture agreement on the Lac Barry Prospect.

For additional details with respect to the exploration and fieldwork programs completed to date on the Lac Barry Prospect, as well as for the details on the expenditures made to date by BonTerra on the project, please refer to BonTerra's continuous disclosure documents available for viewing by the public through the internet at the SEDAR website ([www.sedar.com](http://www.sedar.com)) by accessing BonTerra's issuer profile.

***c) Mining Option Agreement with Alexandria Minerals Corporation (acquired by O3 Mining Inc.)- Centremaque Property, Québec***

On April 13, 2017, the Company granted an option to Alexandria Minerals Corporation ("Alexandria") on the Centremaque Prospect located in the AGB, northeast of Val-d'Or, Québec. In order to acquire an 80% interest in the property, Alexandria must: (i) issue, over a four -year period from the date of signing, to Golden Valley such number of common shares in its capital having an aggregate value of \$250,000 based on the closing price of Alexandria's shares on the Exchange the day prior to the date of issuance of each tranche of payment shares, of which shares and/or cash in the amount of \$150,000 have been received to date; and, (ii) incur exploration expenditures in an aggregate amount of \$4,000,000 over the same four-year period. Once the option is exercised, the Company will retain a 20% free carried interest and a 1.5% NSR, with 0.5% of the NSR being subject to a buyback in favour of Alexandria for \$1.0 million payable to Golden Valley.

In accordance with the terms of the option agreement, Alexandria agreed to a \$2,000,000 work commitment on or before April 20, 2020. On April 3, 2020, O3 Mining Inc ("O3 Mining"), which acquired Alexandria in 2019, provided a notice of force majeure and extension of delay as a result of the government of Québec's decision, relating to COVID-19, to close all non-essential businesses. On May 28, 2020, the option agreement with O3 Mining was amended to provide that the payment date of the remaining cash consideration of \$100,000 and the date to incur the remaining exploration expenditure commitment of \$3,250,000 have been extended to June 9, 2021.

On February 7, 2021, the option agreement was further amended such that the remaining exploration expenditure commitment of \$2,000,000 to be incurred on or before June 9, 2021 can also be satisfied through issuance of shares in O3 Mining, provided that O3 Mining commits to complete a drilling program of least 5,000 metres on the Centremaque Prospect in the winter of 2021. As at June 30, 2021, O3 Mining have indicated they have fulfilled their exploration expenditure commitment. Final documentation remains outstanding.

For additional details with respect to the exploration and fieldwork programs completed to date on the Centremaque Prospect, as well as for the details on the expenditures made to date on the project by O3 Mining, please refer to O3 Mining's continuous disclosure documents available for viewing by the public through the internet at the SEDAR website ([www.sedar.com](http://www.sedar.com)) by accessing O3 Mining's issuer profile.

***d) Eldorado Gold Corporation (“Eldorado”) – Abitibi Greenstone Belt Joint Venture – Bogside Gold Prospect – Cadillac, Québec***

On December 8, 2008, the Company earned a 70% interest in the group of nine properties (eight gold and one copper-zinc-silver) located in the AGB (Québec and Ontario) and a 70:30 joint venture (the “GZZ-I JV”) was formed between Golden Valley and Eldorado Gold Corporation, with the latter having acquired its interest through the acquisition of Integra Gold Corporation. Golden Valley is the operator for the joint venture. The GZZ-I JV is subject to underlying royalties ranging between 3.0% and 3.5% in favour of the original vendors, one of whom is a director and an officer of the Company.

***e) Sirios Resources Ltd. – Sharks and Cheechoo Joint Venture - James Bay Northern, Québec***

On October 23, 2013, Golden Valley granted Sirios Resources Ltd. (“Sirios”) an option to acquire Golden Valley’s remaining 55% interest in the Cheechoo prospect. Sirios completed all its obligations under the agreement to earn a 100% interest in the Cheechoo prospect and therefore holds 100% of the Cheechoo prospect, subject to the royalty described below.

As additional consideration for the grant of the option, Sirios granted to Golden Valley a royalty equal to 4% of the net returns from all mineral products mined or removed from the Cheechoo gold project. Notwithstanding the foregoing, the royalty relevant to gold mineral products mined or removed from the Cheechoo gold prospect may vary between 2.5% and 3.5% depending on the market price of gold at the time of the payment.

## **PROPERTY INTERESTS ASSIGNED TO THE REPORTING SUBSIDIARY**

### **ABITIBI ROYALTIES INC.**

As of the date of this Management’s Discussion and Analysis, Abitibi Royalties holds interests among others, in the following assets:

The Canadian Malartic Mine, where Abitibi Royalties owns various Net Smelter Returns (“NSR”) and Net Profit Interests (“NPI”), is jointly operated by Agnico Eagle Mines Limited (“Agnico Eagle”) and Yamana Gold Inc. (“Yamana”) (the “Partnership”). Abitibi Royalties’ NSRs and NPIs cover portions of the Odyssey (3% NSR), East Malartic (3% NSR), Sladen (3% NSR), Sheehan (3% NSR), Jeffrey (3% NSR), Barnat Extension (3% NSR), Gouldie (2% NSR) and the Charlie Zone (2% NSR). Abitibi Royalties also owns the following early-stage exploration royalties near producing mines throughout the Abitibi region in Québec and additional royalties in Canada and Turkey.

At the time of the sale of the Malartic CHL Prospect (the “Prospect”) in 2015 to Canadian Malartic GP whereby Abitibi Royalties received as consideration a 3% NSR on the Prospect, no cost for accounting purposes has been assigned to the 3% NSR as the Prospect was still at its early stage of exploration and future cash flows could not be reliably estimated. Similarly, at the time of the purchase of Abitibi Royalties’ other royalty interests, the properties associated with the royalty interest were either: (a) in the early stages, (b) considered to be speculative, (c) expected to require more than two years to generate revenues, if ever, and/or (d) were currently not active. As such, acquisition costs of the royalty interest

were recorded in the consolidated profit or loss and thus royalty interests of Abitibi Royalties do not appear on the Company's consolidated statements of financial position.

### ***Main royalty interests***

#### **Malartic CHL 3% NSR Royalty - Malartic, Québec**

The area covered by the 3% NSR is located immediately east of the current Canadian Malartic Mine open pit. The 3% NSR covers a number of known mineralized zones; the eastern part of the Barnat Extension, the Jeffrey Zone and portions of the East Malartic Odyssey, Sladen and Sheehan.

For the three and six months ended June 30, 2021, Abitibi Royalties earned royalties in the amount of \$450,564 (or US\$363,534) and \$639,106 (or US\$513,468) (for the three and six months ended June 30, 2020 - \$93,633 (or US\$68,707) and \$167,918 (or US\$121,068)) from this royalty interest.

#### **Canadian Malartic 2% NSR Royalty – Malartic, Québec**

The area covered by the 2% NSR is on a single claim located just to the south of the Canadian Malartic open pit and covers the eastern portion of the Gouldie Zone and the historic Charlie Zone.

### **Other royalty interests**

#### **Authier North Lithium Royalty & Perrigo Royalties**

Abitibi Royalties acquired a 1% NSR and 15% of any proceeds from a sale or joint venture on the Authier North Lithium property located approximately 40 kilometers north of Malartic, Québec and acquired, in February 2021, a royalty of 1.25% NSR (0.25% can be repurchased for \$250,000) on the Perrigo project located in Ontario's Red Lake district.

#### **Revillard Property 2% Royalty - Malartic, Québec**

The area covered by the 2.0% NSR is located approximately ten kilometres northwest of the Canadian Malartic Mine and forms part of a larger set of claims known as the Malartic Project.

#### **Radium 15% NPI – Malartic, Québec**

The area covered by the 15% NPI is located immediately west of the Canadian Malartic Mine open pit. The 15% NPI covers the historic Radium Zone.

#### **Midway Project 1.5% NSR**

The area covered by the 1.5% NSR is located east and south of the Canadian Malartic Mine open pit. The 1.5% NSR covers a number of known mineralized zones; Piche-Harvey, Briar and Chabela. A total of

1.0% of the NSR can be repurchased by the Canadian Malartic Mine by paying US\$1.0 million to Abitibi Royalties.

#### 1.5% NSR in the Abitibi region, Québec

The areas covered by the various 1.5% NSRs are on projects owned by Agnico Eagle throughout the Abitibi region in Québec. These projects include 1) Callahan (6.5 km northeast and northwest of the Canadian Malartic Mine and Agnico Eagle's Goldex Mine and 1.5 km north of the Wesdome Gold Mines' Kiena Deep discovery), 2) Cadillac (part of the LaRonde Mine), 3) Thompson River (part of the Goldex Mine) and 4) Malartic Break (6 km northwest of the Canadian Malartic Mine). A total of 1.0% of the NSR royalties can be repurchased by Agnico Eagle by paying US\$1.0 million to Abitibi Royalties.

#### 1.0% NSR on the New Alger Project

The area covered by the 1.0% NSR is located in the Abitibi region of northwest Québec. The New Alger project contains the historic Thompson-Cadillac Mine and adjoins Agnico Eagle's LaRonde mine to the South.

#### Malartic South

The area covered by this package of royalties is located south of the Canadian Malartic Mine and also southeast of the Agnico Eagle's Goldex Mine. Abitibi Royalties is also entitled 15% of the gross proceeds (cash and shares) should the underlying properties be sold or joint ventured.

#### ***Early-stage royalties project generator business***

As part of Abitibi Royalties' strategy to expand its royalty holdings, Abitibi Royalties has set up project generator division with the view of selling or optioning mineral projects while retaining a royalty. The initiative is designed to generate a competitive return on capital, and expand the Abitibi Royalties' royalty holdings, while employing a limited amount of working capital.

#### Upper Red Lake (Ontario)

On February 4, 2021, Abitibi Royalties signed an option agreement with Xplore Resources Corp. ("Xplore") on the Upper Red Lake Project. Xplore may earn a 100% interest in the project by issuing to Abitibi Royalties \$62,500 of Xplore's common shares based on the daily volume weighted average (the "VWAP") price of Xplore's shares for the 14-day period preceding the date of the execution of Letter of Intent ("LOI") and by issuing to Abitibi Royalties \$125,000 and \$150,000 of Xplore's common shares based on the VWAP price of Xplore's shares for the 14-day period preceding the first and secondary anniversary date of the execution of the LOI, respectively. On Xplore completing its share issuance obligations, Abitibi Royalties will be granted a 1.5% NSR on the Upper Red Lake Project. Xplore has also agreed to complete sufficient exploration work on the property to maintain the project in good standing during the time of the option agreement. On March 5, 2021, Abitibi Royalties received 1,096,491 common shares of Xplore, with a fair value of \$62,500, relating to this mining option agreement.

### *Hammond Reef South (Ontario)*

On August 10, 2020, Abitibi Royalties entered into a mining option agreement with Victory Resources Corporation (“Victory”) on the Hammond Reef South property. In accordance with the option agreement, in order to acquire a 100% interest in the property, Victory must: (i) issue to Abitibi Royalties, over a two-year period, cash consideration of \$250,000 and share consideration of 2,750,000 common shares in Victory’s capital; and (ii) incur exploration expenditures in an aggregate amount of \$550,000 over a three-year period, of which a minimum of \$25,000 is to be spent in the first year of the option agreement. Upon the option being exercised, Abitibi Royalties will retain a 2.0% NSR on the property.

As of the date of approval of these MD&A, Victory has not fulfilled its obligations to in order to extend the option agreement.

### *Bullfrog South Project (Nevada)*

On December 9, 2020, Abitibi Royalties entered into a mining option agreement with Bullfrog Mines LLC (“Bullfrog”) on the Bullfrog South property. In accordance with the option agreement, in order to acquire a 100% interest in the property, Bullfrog must issue to Abitibi Royalties, over a two-year period, consideration of \$175,000 in cash or share in Bullfrog’s capital and reimburse Abitibi Royalties for mining claims fees to be paid in 2021. Upon the option being exercised, Abitibi Royalties will retain a 2.0% NSR on the property, Bullfrog has the option to purchase 0.5% of the NSR for \$500,000 on or before December 9, 2030.

## **INVESTMENTS IN ASSOCIATES**

### **Val-d’Or Mining Corporation**

In addition to the 61 properties acquired on April 18, 2017 from Golden Valley, Val-d’Or Mining also owns the following assets:

- The Boston Bulldog Prospect is comprised of 14 claim cells (14 single claim cells covering an area of 302 ha), located in Kirkland Lake, Ontario. Val-d’Or Mining was granted an option to acquire a 100% interest in the property. An exploration program for the property is currently at the planning stage.
- The Shoot-Out Prospect is the combination of three former properties (East Shoot-Out, West Shoot-Out and Donnybrook prospects), located southwest of Glencore’s Raglan Mine, in northern Québec. Val-d’Or Mining has a 100% ownership interest in 182 contiguous mining cells covering 7,405 hectares, and is subject to a 3% NSR. Presently, no immediate exploration fieldwork is planned on the property; and,
- The Ducros Group (including the Fortin Prospect) is located in the central part of Ducros Township, located approximately 80 kilometres northeast of the City of Val-d’Or, Québec. The property consists of 189 contiguous mining claims covering 12,851 hectares that is subject to a 1.5% NSR to the original property vendors.

For additional details with respect to the exploration and field work completed to date at Val-d'Or Mining, please refer to Val-d'Or Mining's continuous disclosure documents available at the SEDAR website ([www.sedar.com](http://www.sedar.com)) by accessing Val-d'Or Mining's issuer profile.

## DISCUSSION AND RESULTS OF OPERATIONS

### Revenues

For the three and six months ended June 30, 2021, the Company's consolidated revenues are derived from royalties, dividends and option revenues totaling \$725,489 and \$1,094,115 compared to \$313,033 and \$450,483 for the same periods in 2020, respectively.

Consolidated revenues for the three and six months ended June 30, 2021 were higher compared to the same periods in 2020 as Abitibi Royalties earned royalties of \$450,564 and \$639,106 (compared to \$93,633 and \$167,918 for the same periods in 2020) from its Malartic CHL 3% NSR royalty interest at the Canadian Malartic Mine near Val-d'Or, Québec. Similarly, for the three and six months ended June 30, 2021, dividends of \$174,925 and \$355,009 (compared to \$169,400 and \$232,565 for the same periods in 2020), respectively, earned by Abitibi Royalties from its investments in the common shares of Agnico Eagle and Yamana, were higher from the increase in the dividend rate since mid-2020.

Premiums received by Abitibi Royalties from option sales are not treated as revenues but are initially recognized as liabilities in "Derivative financial instruments" of the consolidated statements of financial

position until such time the options are either exercised by the holder, expired unexercised on maturity or repurchased before maturity by Abitibi Royalties, in which time the premiums are recorded “Change in fair value of derivatives” in the consolidated statements of net loss and comprehensive loss.

Consolidated revenues for the three and six months ended June 30, 2021 included option revenues of \$100,000 and \$100,000 (compared to \$50,000 and \$50,000 for the same periods in 2020) earned from the Company’s mining option agreement with O3 Mining.

### ***Operating Expenses***

For the three and six months ended June 30, 2021, the Company recorded consolidated operating expenses of \$808,956 and \$1,546,465 compared to \$863,663 and \$1,815,829 for the same periods in 2020, respectively.

Significant variances in operating expenses are as follows:

#### *a) Salaries and other employee benefits*

Salaries and other employee benefits amounted to \$303,348 and \$682,435 for the three and six months ended June 30, 2021 compared to \$354,064 and \$764,571 for the same periods in 2020, respectively. The lower salaries and other employee benefits expense in 2021 reflected a refund of \$30,305 on reassessment of government payroll taxes in Abitibi Royalties and 2020 reflected higher government payroll levies on taxable benefits of incentive stock options exercised in Golden Valley.

#### *b) Professional fees*

Professional fees, which comprised of audit, tax and accounting fees, legal fees, investor relations fees, and filing fees, amounted to \$323,914 and \$507,760 for the three and six months ended June 30, 2021 compared to \$230,463 and \$432,284 for the same periods in 2020, respectively. The increase in professional fees in 2021 was due to higher fees relating to filing, exchange and transfer agent services, as well as consulting fees for social media and investor relation services.

#### *c) General and Administrative expenses*

For the three months ended June 30, 2021, General and Administrative expenses, consisting of office expenses, advertising, exhibitions and travelling, were \$73,949 compared to \$55,445 for the same period in 2020. The increase relates to higher premiums paid for Directors’ and Officers’ liability insurance for 2021.

For the six months ended June 30, 2021, General and Administrative expenses were \$148,664 compared to \$222,274 for the same period in 2020. The decrease relates to lower advertising, exhibitions and related travel expenses stemming from COVID-19 imposed restrictions as events and exhibitions to generate new business opportunities and corporate development activities in Canada and internationally have been limited to online events provided through digital services or e-conferences. These lower expenses were offset by higher premiums paid for Directors’ and Officers’ liability insurance.

*d) Share-based compensation*

For the three and six months ended June 30, 2021, share-based compensation expense has decreased to \$14,148 and \$29,611 compared to \$126,326 and \$224,291 for the same periods for 2020, respectively.

Share-based compensation has decreased in 2021 as no incentive stock options were granted for the three and six months ended June 30, 2021. The share-based compensation for 2020 mainly relates to share-based compensation from the March 2020 grant of 22,500 incentive stock options at an exercise price of \$5.00 per share and the June 2020 grant of 25,000 incentive stock option at an exercise price of \$6.80 per share.

***Other income (expenses)***

For the three and six months ended June 30, 2021, the Company recognized consolidated other income (loss) of \$1,317,381 and \$(5,243,834) compared to consolidated other income of \$18,643,948 and \$13,955,184 for the same periods in 2020.

For the three months ended March 31, 2021, the Company recognized consolidated other expenses of \$6,561,216 compared to consolidated other expenses of \$4,688,764 for the same period in 2020.

The significant components of other income (expenses) for 2021 and 2020 are the changes in the fair value of investments and derivatives financial instrument, and foreign exchange gains (losses).

*Change in fair value of investments and derivatives financial instrument*

For the three months ended June 30, 2021, Abitibi Royalties recognized a favourable change in fair value of investments of \$489,400 compared to favourable change of \$22,413,712 in 2020. For the six months ended June 30, 2021, Abitibi Royalties recognized an unfavourable change in fair value of investments of \$9,160,304 compared to favourable change of \$8,603,228 in 2020. The higher change of \$22,413,712 in fair value of investments for the three months ended June 30, 2020 relates to Yamana's share price increasing from \$3.91 per share as at March 31, 2020 to \$7.38 per share as at June 30, 2020 and similarly Agnico's share price increasing from \$56.18 per share as at March 31, 2020 to \$86.93 per share as at June 30, 2020.

Similarly, the Abitibi Royalties' outstanding derivative financial instruments connected with the covered call and put options are fair valued at each reporting period, which fair value changes are presented in the consolidated statements of net loss and comprehensive loss. For the three months ended June 30, 2021, Abitibi Royalties recognized a favourable change in fair value of derivative financial instruments of \$752,386 (including changes related foreign exchange) compared to unfavourable change of \$3,400,849 in 2020. For the six months ended June 30, 2021, Abitibi Royalties recognized a favourable change in fair value of derivative financial instruments of \$4,317,409 (including changes related foreign exchange) compared to favourable change of \$3,214,864 in 2020.

### *Foreign exchange losses (gains)*

Other income in 2021 also includes net of foreign exchange losses of \$248,420 and \$475,155 for the three and six months ended June 30, 2021 compared to foreign exchange losses of \$221,240 and gains of \$2,584,905 for the same periods in 2020, respectively.

Abitibi Royalties is subject to fluctuation in the exchange rate with the US dollar as Abitibi Royalties holds cash denominated in US dollars and Abitibi Royalties' derivative financial instruments are also held in US dollars. The foreign exchange gain of \$2,584,905 for the six months ended June 30, 2020 relates to Abitibi Royalties receiving net proceeds of \$26,037,375 (or US\$19,851,613) from being called to deliver 350,800 common shares of Agnico Eagle and 751,800 common shares of Yamana from call options it had sold in January 2020; in March 2020, Abitibi Royalties was called to purchase 361,400 common shares of Agnico Eagle and paid, before commissions, \$23,566,715 (or US\$16,263,000) from put options it had sold. Due to the strengthening of the US dollar relative to the Canadian dollar during the first quarter of 2020, Abitibi Royalties was recognizing gains on foreign exchange on the movement of its US dollar denominated balances.

As at June 30, 2021, cash and restricted cash included US\$13,590,225 (December 31, 2020 - US\$7,428,126). As at June 30, 2021, a fluctuation of 1% in the U.S dollar value relative to the Canadian dollar has an impact of \$168,437 (December 31, 2020 - \$94,575) on the Company's cash on hand.

### *Gain on dilution of equity investment*

For the three and six months ended June 30, 2021, the Company recognized gains on dilution of equity investments of \$113,212 and \$113,212 compared to \$nil for the same periods in 2020, respectively. The gains on dilution of equity investments were due to non-brokered private placements completed by Vald'Or Mining and International Prospect during the three months ended June 30, 2021 that reduced the ownership interest of Golden Valley in each respective company.

### *Gain on loss of significant influence*

For the three and six months ended June 30, 2021, the Company recognized a gain on dilution of equity investments of \$384,119 and \$384,119 compared to \$nil for the same periods in 2020, respectively.

On June 15, 2021, International Prospect completed a private placement of \$800,250 which resulted in an issuance of 5,334,999 Units at a price of \$0.15 per Unit. As a result of the private placement, the Company's ownership in International Prospect decreased to 11.45% of the issued and outstanding common shares of International Prospect. As a result of the decrease in the Company's interest and other indicators, the Company concluded that it no longer has significant influence over International Prospect and classified its investment in International Prospect common shares as financial asset at fair value through other comprehensive income on June 15, 2021, presented as Equity investment in Other Assets as at June 30, 2021. Upon concluding that the Company no longer had significant influence over International Prospect, the Company recorded its investment in International Prospect at fair value using the quoted market price on June 15, 2021 of \$0.15 per share for a total of \$715,346 and recognized a gain on loss of significant influence in associate of 384,119.

## ***Income tax expense***

### *Current*

For the three months ended June 30, 2021, Abitibi Royalties recognized tax recoveries of \$80,817 compared to \$371,701 for the same period in 2020. For the six months ended June 30, 2021, Abitibi Royalties recognized tax expense of \$712,159 compared to \$1,965,913 for the same period in 2020.

The current tax expense for 2021 is mainly relating to the taxable gain from the net proceeds of \$9,275,658 (or US\$7,289,892) received by Abitibi Royalties from being called to deliver 37,700 common shares of Agnico Eagle and 1,109,100 common shares of Yamana as discussed above.

The current tax expense for 2020 is mainly relating to the taxable gain from the net proceeds of \$26,037,375 (or US\$19,851,613) received by Abitibi Royalties from being called to deliver 350,800 common shares of Agnico Eagle and 751,800 common shares of Yamana, net of utilization of non-capital losses and resource expense deductions available to Abitibi Royalties to offset the taxable gain.

### *Deferred Income Taxes*

For the three months ended June 30, 2021, Abitibi Royalties recognized deferred tax expense of \$59,962 compared to \$2,409,033 for the same period in 2020. For the six months ended June 30, 2021, the Company recognized deferred tax recoveries of \$1,695,174 compared to \$299,958 for the same period in 2020. The deferred tax recovery of \$1,695,174 for 2021 mainly relates to the decrease of \$2,144,049 in deferred tax liability associated with Abitibi Royalties' investments in the common shares of Agnico Eagle and Yamana. Deferred income tax is impacted by the cost basis relative to the fair value of the common shares in Agnico Eagle and Yamana whereby a decrease in the market value of these investments (which fair value decreased for the six months ended June 30, 2021) has a corresponding decrease in the deferred tax liability. This decrease in deferred tax liability is offset by the decrease of \$354,726 for the six months ended June 30, 2021 (compared to \$240,764 for the same period in 2020) in the deferred tax asset relating to the derivative financial instruments.

Abitibi Royalties only sells call options when it owns the underlying shares. Should covered calls be sold, it is Abitibi Royalties' objective to use strike prices that are anticipated to be well above the share price of Agnico Eagle and Yamana at the time the contract is written, with contracts generally expiring between 1 month and 2 years. Abitibi Royalties only writes put contracts when it has the required funds (in the currency which the contract was written) to purchase the underlying shares should the put contract be exercised.

### ***Deferred tax liability***

The deferred tax liability totaled \$998,484 as at June 30, 2021 compared to \$2,693,658 as at December 31, 2020. The deferred tax liability consists of the potential tax liability of \$1,438,147 on the capital gain to be realized on the eventual sale of Abitibi Royalties' investments in the common shares of Agnico Eagle and Yamana, net of the tax deferred tax assets of \$207,513 and \$227,960 in respect of temporary differences between the carrying amounts for financial reporting purposes and the amounts used for taxation purposes of the Company's derivative financial instruments and Exploration and evaluation assets, respectively.

## **OUTLOOK**

The Company is evaluating certain strategic business opportunities in the exploration/mining industry. A number of internal reviews and assessments have been completed, or are in progress, for distressed companies and assets, both in Canada and abroad. Additionally, various property submittals are routinely considered for acquisitions. Furthermore, the general public market volatility that has continued to affect the overall state of the exploration industry has offered Golden Valley new opportunities for its project generation ("PGEN") activities, where previously the demand for prospective land was at a much more competitive state. One of the Company's most important attributes is its ability to identify new high priority exploration opportunities and flexibility to adapt quickly to changing market conditions in base, precious and energy minerals.

The Company routinely assesses government data and/or historical work reports together with proprietary data to acquire prospective mining claims. The past results of this grassroots exploration generative business model have led to the identification of several new mineral discoveries (Co-Ag-Ni, Ni-Cu-PGE and Au-VMS) in the Abitibi Greenstone Belt on 100%-owned properties; it has also assisted the Company in the successful creation of several option/joint venture agreements allowing for diamond drilling, in particular on those projects on which

reconnaissance work has already been completed to identify prospective drill targets (such as the Island 27 Prospect near Matachewan, Ontario for Co-Ni-Ag; the Centremaque Prospect near Val-d'Or and the Lac Barry Prospect NE of Val-d'Or, the latter two properties primarily for gold). In this manner, the Company remains focused on its core business of early-stage acquisitions, PGEN and drill target definition, while working with its public subsidiaries and arms-length joint venture partners to conduct the more expensive and detailed drill-based exploration programs.

#### RISK AND UNCERTAINTIES

##### COVID-19

At this time, the extent of the impact the COVID-19 pandemic may have on the Company is unknown as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place. Adverse effects of coronavirus developments on consumer confidence, market stability and public health creates uncertainties on macroeconomic

conditions and may also result in closures, cancellations of, or reductions in operations or production on properties where the Company and its subsidiaries hold royalty interests.

### **ESG Factors**

Environmental, social and governance (ESG) factors have garnered the attention of companies and their investors and stakeholders. Amid the global crises of the pandemic and climate change, the Company is striving to come up with business strategies that can deliver societal value, as more particularly discussed above. However, there can be no assurance that the Company will be successful in its efforts as contemplated, or at all, which could have an adverse impact on its relations with its stakeholders.

### **Climate Change**

The Company has properties, joint venture agreements and/or royalties in various regions and jurisdictions where environmental laws are evolving and are not consistent. A number of governments or governmental bodies have introduced or are contemplating regulatory changes in response to the potential impact of climate change, such as regulation relating to emission levels. If the current regulatory trend continues, this may result in increased costs directly or indirectly affecting the Company. In addition, the physical effect of climate change, such as extreme weather conditions, natural disasters, resource shortages, changing sea levels and changing temperatures, could have an adverse financial impact on operations located in the regions where these conditions occur, directly or indirectly impacting the business of the Company.

### **Investment of Speculative Nature**

Investing in the Company is of a highly speculative nature.

### **Nature of Mineral Exploration and Mining**

There is no known mineral resource on any of the Company's property interests. Mineral exploration and development involves a high degree of risk, requires substantial expenditures and few properties that are explored are ultimately developed into producing mines.

### **Mineral Deposits and Production Costs; Metal Prices**

The economics of developing mineral deposits are affected by many factors including variations in the grade of ore mined, the cost of operations, and fluctuations in the sales price of products. The value of the Company's mineral property interests is heavily influenced by metal prices. There can be no assurance that the prices of mineral products will be sufficient to ensure that the Company's properties can be mined profitably.

### **Exploration and Development Risks**

Resource exploration and development is a speculative business, involving considerable financial and technical risks, including the failure to discover mineral deposits, market fluctuations and government regulations, which are beyond the control of the Company.

### **Additional Financing**

Future exploration and development activities will require additional equity and debt financing. Failure to obtain such additional financing could result in delay or indefinite postponement of exploration and development of the property interests of the Company.

## **Stress in the Global Economy and Financial Condition**

The adverse effects on the capital markets generally make the raising of capital by equity or debt financing much more difficult and the operators of properties where Abitibi Royalties royalty and other interests are dependent upon the capital markets to raise financing. Adverse effects of coronavirus developments (COVID-19) on consumer confidence, market stability and public health creates uncertainties on macroeconomic conditions and may also result in closures, cancellations of, or reductions in operations or production on properties where Abitibi Royalties holds royalty interests.

## **Permits and Licenses**

The operations of the Company require licenses and permits from various governmental and non-governmental authorities. There can be no assurances that the Company will be able to obtain all necessary licenses and permits required to carry out exploration, development and mining operations for its proposed projects.

## **Competition**

The mineral exploration and mining business is competitive in all of its phases. The Company competes with numerous other companies and individuals, including competitors with greater financial, technical and other resources than the Company's, in the search for and the acquisition of attractive mineral properties. There is no assurance that the Company will continue to be able to compete successfully with the competition in acquiring such properties or prospects.

## **Dependence on Key Individuals**

The Company is dependent on a relatively small number of key personnel, the loss of any one of whom could have an adverse effect on the Company. The Company does not maintain key-person insurance on the lives of any of its key personnel. In addition, while certain of the Company's officers and directors have experience in the exploration of mineral producing properties, the Company will remain highly dependent upon contractors and third parties in the performance of their exploration and development activities. There can be no guarantee that such contractors and third parties will be available to carry out such activities on behalf of the Company or be available upon commercially acceptable terms.

## **Environmental and other Regulatory Requirements**

The operations of the Company require permits from various levels of government. Such operations are subject to laws and regulations governing prospecting, development, mining, production, exports, taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, mine safety and other matters.

## **Political Regulatory Risks**

Any changes in government policy may result in changes to laws affecting the Company's ability to undertake exploration and development activities in respect of present and future properties.

## **Currency Risk**

Currency fluctuations may affect the cash flow which the Company may realize from its operations, since most mineral commodities are sold in a world market in U.S. dollars. The Company's costs are incurred primarily in Canadian dollars.

## **Conflicts of Interest**

The directors and officers of the Company will not be devoting all of their time to the affairs of the Company. Some of the directors and officers of the Company are also directors and officers of other companies, some of which are in the same business as Golden Valley. The directors and officers of the Company are required by law to act in the best interests of the Company. They have the same obligations to the other companies in respect of which they act as directors and officers. Discharge by the directors and officers of their obligations to the Company may result in a breach of their obligations to the other companies, and in certain circumstances this could expose the Company to liability to those companies. Similarly, discharge by the directors and officers of their obligations to the other companies could result in a breach of their obligation to act in the best interests of the Company. Such conflicting legal obligations may expose the Company to liability to others and impair its ability to achieve its business objectives.

## **Insurance**

The Company does not have insurance to adequately protect itself against certain risks associated with mineral exploration. Even if they were to obtain insurance, the Company will remain at risk and will be potentially subject to liability for hazards which it cannot insure against or which it may elect not to insure against because of premium costs or other reasons.

## **Influence of Third-Party Stakeholders**

The lands in which the Company holds interests, or the exploration equipment and roads or other means of access which the Company intends to utilize in carrying out work programs or general exploration mandates, may be subject to interests or claims by third party individuals, groups or companies. In the event that such third parties assert any claims, the work programs of the Company may be delayed even if such claims are not meritorious. Such delays may result in significant financial loss and loss of opportunity for the Company.

## **Fluctuation in Market Value of Shares**

The market price of a publicly-traded stock is affected by many variables not directly related to the corporate performance of the entity, including the market in which it is traded, the strength of the economy in general, the availability and attractiveness of alternative investments, and the breadth of the public market for the stock. The future effect of these and other factors on the market price of the Company's shares on the Exchange cannot be predicted.

## **Derivatives instruments**

Due to the complex nature and market volatility that may influence the market value of the shares, selling of call and put options is subject to risk including limiting the potential upside gains and being obligated to purchase the underlying shares above the current market value. Although all risks cannot be eliminated, the Company is mitigating these risks by owning the underlying shares or having the cash requirement to meet its obligations.
